Trash a disgrace to all

Editor:

I read every article on this trash left behind by illegals. I believe the Border Patrol should line up about 20 or 30 of them and make sure that each—week—that will be a sight, if they can get the cooperation. Let the border patrol take the trash out. It is mostly trash that are currently in the closed up in the clean up.

Bike lane funds

Editor:

I agree with Mr. Hertel that it would be a good idea to have bike lanes on Rinconada and White Canyon Boulevard. I have wheel injuries and want to point out that this thing has no doing to with the bike lane project to Canton. We call that project the bike lane project and set are not coming from Pima County. The funds for the bike lane project are a result of letters submitted by local citizens submitting a grant proposal and obtaining TEA-21 funding from the Federal government. The proposal was used for projects such as fixing the dip.

I would suggest that Mr. Hertel contact the Traffic and Arroyo Committee of the GCCVCC to see if this dip is on the agenda with Pima County.

Astronomers’ concerns should be considered at hearing tomorrow

We know that growth is both inevitable and omnipresent in our area and that area residents are deeply concerned about its impact on the environment, our water supply, our schools and many other aspects. One development that is drawing the hearing tomorrow on the proposed Montosa Ranch development of Mr. Jack Sheaffer near Amado, north of Vail, on the east side of Interstate 19 about 18 miles from the Fred Lawrence Whipple Observatory stop Mount Hopkins.

To pinpoint that location more precisely, the developer of the project, the Molera Development Group, say they believe there’s enough water for the 2,500 homes contemplated and that there will be sufficient ac-
